Purpose of this playlist

This playlist is a collection of songs created to support conscious focus, clarity, and alignment with what people want to experience more of in their lives. Each song explores how attention, emotion, and intention shape daily reality, reminding people that where focus goes, energy follows.

These tracks are designed to be listened to during meditation, journaling, rest, creative work, or quiet moments of reflection. People can return to them whenever they want to steady their thoughts, shift emotional patterns, or reconnect with a sense of possibility and inner direction.

Rather than pushing or forcing outcomes, these songs encourage awareness of what is being nurtured internally. When people focus on appreciation, clarity, and presence, life responds in kind. When attention stays on lack or fear, those patterns tend to repeat. This playlist invites people to notice that choice.

For people who want structured guidance and ongoing support, the Law of Attraction membership offers lessons, reflections, and practices to help apply these principles in daily life.
