Category: Yoga and contemplative learning | 195 video entries

Purpose of this playlist

This playlist brings together songs inspired by all four books of Patanjali's Yoga Sutras, offering a complete journey through the teachings of yoga as a path of inner clarity, discipline, and spiritual realization.

The Yoga Sutras present a clear and practical system for understanding the mind, refining awareness, and revealing the deeper spiritual self beneath thoughts, emotions, and habits. Across the full collection, the teachings move from awakening spiritual awareness, to practical inner training, to the refinement of perception, and finally toward liberation and freedom from mental limitation.

Each song reflects the essence of a sutra, allowing the wisdom to be absorbed through listening rather than analysis alone. These tracks are suited for meditation, yoga practice, journaling, rest, or quiet reflection, supporting both study and lived experience.

If you would like to study the Yoga Sutras more deeply and explore yoga as a spiritual path, you can join the Yoga membership here: https://healthmanifested.com/yogi-at-heart/

For people who want to integrate the Yoga Sutras with astrology, Human Design, Gene Keys, planetary timing, and cycles of consciousness, the HD Astro membership offers a broader framework for understanding how these teachings apply to daily life: https://healthmanifested.com/hd-astro-course-options/
