Purpose of this playlist

This playlist reflects my real-life experiences through the lens of astrology and Human Design. Each song was created during specific transits that deeply shaped my journey, emotionally, spiritually, and practically. These are not just lessons I include in my courses. They are the ones I have lived.

From heartbreak and survival to resilience and awakening, every track carries the energy of the gates, planets, and houses I have moved through. This is astrology in motion. This is Human Design expressed through music. This is the sound of transformation.

If you have ever wondered what it feels like to live your chart, this is my version of it.
