Planets in Houses Songs

Category: Astrology and zodiac | 119 video entries

Purpose of this playlist

This playlist explores what happens when each planet moves through the 12 houses of the natal chart.

The planet shows the type of energy. The house shows where that energy plays out in real life.

When you understand your planets in houses, you begin to see why certain themes repeat in specific areas of your life. You start recognizing patterns around relationships, money, career, family, creativity, belief systems, and purpose. Instead of feeling confused by your experiences, you begin to see the structure underneath them.

Each video in this series focuses on one planet in one house in a clear and grounded way. This is astrology applied to real life, not just theory.

If you find yourself wanting more than a short explanation, the HD Astro Membership was created for that next step. Inside the membership you learn how to read your full chart including houses, signs, degrees, aspects, and the connection to the 64 Human Design Gates. It gives you the framework to understand your timing rather than just react to it.
